

# THE FUTURE OF GOLF CLUB GRIPS IS

## "CRYSTAL CLEAR®" !!

Are you looking for that perfect golf club grip? Are you tired of generic, dull, plain looking grips? Well, look no further! Crystal Clear<sup>™</sup> Grip Corporation has invented the perfect golf club grip that not only feels great, looks great, but also allows the golfer to express him or herself through a wide selection of grip designs.

Crystal Clear<sup>™</sup> Grips combine awesome gel-like feel with stylish, head-turning looks.

Crystal Clear<sup>™</sup> Grip Corporation is proud to present the most advanced, comfortable and stylish golf club grip on the market. We've designed a grip that feels good, looks good and can be express feeling as well. Each grip can be customized (OEM) by adding pictures, letters, words, and graphics to be clearly seen through the transparent polymer.

## **DURABLE AND STRONG**

We use a 3-layer system to create our stunning patented grip. The first layer of rubber is applied to the club shaft. A second layer is then placed on top of the initial rubber base. This second layer consists of media (design, logos, flags, etc.) chosen by the sponsor, corporation and artifact. Finally, a very thin third layer of transparent durable polymer is carefully applied for that great gel-like feel.

At Crystal Clear<sup>™</sup> Grip Corporation we believe that a person's golf club is really an extension of the golfer. Now you can express yourself with an American flag or your company's logo? Watch as you take a swing and everyone comes up to you and telling you how much they admire your golf clubs. Little do they know that all you did was change the grip and in turn, create a new club.

## **The Ultimate Feel in Grips**

There are many clear like grips on the market. However, most clear grips on the market are anything but clear. Generic clear grips are very thick and are usually applied to shafts by wrapping one layer of thick polymer. This in turn creates a blurred grip which does not look very appealing. The feel of the grip to the golfer is also not very pleasant. A thick grip will cause the golf club to twist in the golfer's hands causing unwanted torque. The Crystal Clear<sup>™</sup> Grip is made up of three layers of different material which come together perfectly for the ultimate feel in grips.
